Revised Schedule

EPA's Best Case Schedule for Yosemite Slough Cleanup

Major Milestone		Timeframe
1	EECA Technical Stakeholder Committee Meetings	November 2011 – July 2012
2	Technical Studies for EECA	January 2012 - May 2012
3	EPA Public Outreach Activities on EECA Planning	Spring – Summer 2012
4	Public Comment Period & Public Meeting on the EECA	Fall 2012
5	Final EECA and EPA Action Memorandum	November 2012
6	Remedy Design including any technical studies for RD	2013
7	Start Remedy Implementation	Spring 2014

Assumes:

- a. Successful Technical Stakeholder Committee and public involvement activities in 2012.
 - b. EPA and PRPs achieve legal settlement on remedy design and remedy implementation by late 2012.
 - c. No significant delays during remedy design and “permitting” process in 2013.
-
